proVISION ASIA

NOT CHARITY, BUT EMPOWERED

At proVISION ASIA, our mission is to people who have disabilities to lead independent and fulfilling lives; to extend a hand up- not a hand out; inspiring hope by providing an environment that fosters holistic transformation; enabling people affected by disability to experience abundant life to reach their highest potential for which God created them.

OUR WORK

Mobility Distribution Camp: 259 lives were impacted in Bangalore city and villages across Karnataka. The wheelchairs are provided by Joni and Friends International Disability Center in the USA and refurbished by ten inmates at the Bangalore Central Prison.

Mithra Special School: Our students range from the age of three years to twelve years, with both physical and intellectual disabilities. This learning center incorporates a growing library, outdoor play area with safe equipment, an accessible toilet, separate room for individual instruction and group work, and a kitchen for meal preparation. We provide a platform for the parents of these students to be able to work; therefore improving their socio-economic condition.

empowHER: Our goal is to provide quality education to women who have disabilities. It is a three month intensive course that focuses on spoken English, basic computer skills and personal development. At the end of the program we assist the student with finding a job.

Education Assistance and Scooter Modification: In partnership with the Overseas Women's Club of Bangalore, we educated 48 students and modified ten scooters to fit individual disabilities.

TCS World 10K Bangalore: More than 450 individuals and five corporations represented us in Kanteerava Stadium, Bangalore. Internationally, 80 people participated from seven global locations. Together, we champion the cause for people with disabilities. This year we were delighted to receive the award for the second-highest fundraising charity, among 89 charities that participated all across India.

Project MADHU Mobile Diabetes Clinic: Launched in partnership with Medtronic Inc., focuses on awareness, prevention and management of diabetes in rural and urban Bangalore. India will soon have the most cases of diabetes on the planet. Our fully staffed team will help be the change-agents.

PlayGroup and Friendship Circle:

Beyond the physical needs, social interaction must be addressed. We cater to social, emotional and spiritual growth. Recreation and respite enhances the quality of life for our friends.

Disability Awareness: proVISION ASIA teaches children (and adults) "How to be a BETTER FRIEND to a person with a disability". School assemblies, contextual classroom instruction, sign language, choreography and group interaction help focus disability awareness in a new light. From Pre-K to post graduate programs, education and inclusion impacts everyone.

The team at proVISION Asia are extremely driven and helpful. They are a bunch of dedicated and determined friend people that strive to help the differently-abled in all kinds of ways to make their lives better.

Visited the office in Bangalore back in May 2016 and had an insight of the operations and facilities over there. Very well organized with dedicated people and some inspiring differently-abled people whom are also contributing to the organisation.

Such an amazing morning at #mithra special school at #provisionasia today. Christmas songs, crafting, gifting and snacks. Thanks so much for having us and helping us feel all warm and Christmassy. If anyone else wants some warm fuzzy feels, get in touch. Christmas is the perfect time to support a few folks in need. You could not find a better cause than the Mithra kids and everyone who supports them. http://www.provisionasia.org/ #specialschool #christmas #charity #support #volunteer #volunteering #helpthemmove #bangalore #christmasgiving #differentlyabled
